Titan Ship.

I love You Eternally!

Dear John,

I love you! I got this crazy idea. I was thinking back to all my dreams about the Titan Ship, and it occurred to me that I never actually saw it from the outside. In the book I write about Hannah seeing the outside, but that was for the story in the book. The only time in my dreams that I would have seen it, it was in a cloud. All my ship designs came from me trying to figure out its shape from my memories of its interior. I remember being pulled from the water dome up into a metallic hallway; because of this I offset the domes in previous designs. Then I thought maybe there is a middle level, and the ship could be a sphere. Then suddenly for some random reason I thought of the Hypersepholous from my book. I wondered, what about that? And God said, "It is the ship!" And I was like holy cow!?

LOVE Abraham -
